This prospectus (the "**Prospectus**") relates to up to EUR30,000,000 Ecofi Switch Notes due November 2025 (the "**Notes**") to be issued by Codeis Securities S.A. (the "**Company**") acting in respect of Compartment A0072 (the "**Compartment**") (the "**Issuer**") pursuant to its €100,000,000,000 Limited Recourse Notes Programme (the "**Programme**"). The Issuer is subject to the Grand Duchy of Luxembourg (**Luxembourg**) act dated 22 March 2004 on securitisation, as amended (the **Securitisation Act 2004**). Application has been made to the Commission de Surveillance du Secteur Financier (the "**CSSF**") to approve this document as a prospectus in its capacity as competent authority under the Luxembourg act dated 10 July 2005 on prospectuses for securities (as amended) (the "**Prospectus Act 2005**") which implemented Directive 2003/71/EC of the European Parliament and of the Council of the European Union (the "**Prospectus Directive**") in Luxembourg. In accordance with Article 7(7) of the Prospectus Act 2005 by approving this Prospectus, the CSSF gives no undertaking as to the economic and financial soundness of the operation or the quality or solvency of the Issuer.

The terms and conditions applicable to the Notes (the "**Terms and Conditions of the Notes**" or the "**Conditions**") are incorporated by reference herein (from the base prospectus relating to the Programme dated 20 June 2012 as supplemented pursuant to the first supplement dated 29 June 2012 and the second supplement dated 16 August 2012 (the "**Base Prospectus**")), save that the aggregate nominal amount of the Notes, the issue price of the Notes and certain other terms and conditions applicable to the Notes are specified in the issue specific terms set out under the heading "Issue Specific Terms" in this Prospectus (the "**Issue Specific Terms**"). Words and expressions defined in the Terms and Conditions of the Notes shall have the same meanings when used herein provided that references in the Terms and Conditions of the Notes to the "Final Terms" shall be deemed to be references to the Issue Specific Terms.

This Prospectus will be published on the website of the Luxembourg Stock Exchange (www.bourse.lu) in accordance with article 16 of the Prospectus Act 2005. Copies of this Prospectus can also be obtained at the registered office of the Issuer and the specified office of each of the Paying Agents (as defined below), in each case at the address given at the end of this Prospectus.

In respect of the Compartment and the Notes, and following a Note Acceleration (as defined below) in respect of the Note, the entitlement of the holder of the Note as against the Issuer will be limited to such Noteholder's *pro rata* share of the proceeds of the relevant Charged Assets applied in accordance with the Order of Priority specified in the Issue Specific Terms. If, in respect of any Note, the net proceeds of the enforcement or liquidation of the relevant Charged Assets applied as aforesaid are not sufficient to make all payments due in respect of the Note (such difference between the amounts due in respect of the Relevant Note and the net proceeds of the enforcement or liquidation of the relevant Charged Assets received by the Holder of such Relevant Note being the **Residual Shortfall Amount**), then (i) no other assets of the Issuer will be available to meet such Residual Shortfall Amount, (ii) the claims of the holder of the Note as against the Issuer in respect of any such Residual Shortfall Amount shall be extinguished and (iii) neither the holder of a Note nor any person on its behalf shall have the right to petition for the winding-up of the Issuer as a consequence of any such Residual Shortfall Amount or otherwise. Noteholders, by acquiring the Notes, expressly accept, and shall be deemed to be bound by, the provisions of the Securitisation Act 2004 and, in particular, the provisions with respect to compartments, limited recourse, non-petition, subordination and priority of payments.

The Notes will not be rated.

The Notes described herein may not be legally or beneficially owned at any time by any U.S. Person (as defined in Regulation S under the Securities Act) and accordingly are being offered and sold outside the United States to persons that are not U.S. Persons in reliance on Regulation S.

By its purchase of a Note, each purchaser will be deemed or required, as the case may be, to have agreed that it may not resell or otherwise transfer any Note held by it except outside the United States in an offshore transaction to a person that is not a U.S. Person.

Prospective investors are hereby notified that sellers of the Notes may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A.

Prospective investors should have regard to the factors described under the section headed "Risk Factors" in this Prospectus.

ARRANGER
Societe Generale Corporate & Investment Banking

The date of this Prospectus is 2 September 2016

This Prospectus constitutes a "prospectus" for the purposes of Article 5.3 of the Prospectus Directive as amended (including the amendments made by Directive 2010/73/EU (the "**2010 PD Amending Directive**") to the extent that such amendments have been implemented in a Member State of the European Economic Area) and Part II of the Prospectus Act 2005 in respect of the Notes.

The Notes have not been nor will be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or under any state securities laws, and are subject to U.S. tax law requirements. Accordingly, the Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from the registration requirements of the Securities Act in a transaction that will not cause the Issuer or any Compartment, as the case may be, to become required to register under the Investment Company Act of 1940, as amended. By its purchase of a Note, each purchaser will be deemed or required, as the case may be, to have agreed that it may not resell or otherwise transfer any Note held by it except (i) to the Issuer or any affiliate thereof, (ii) outside the United States in compliance with Rule 903 or Rule 904 under the Securities Act, or (iii) pursuant to an effective registration statement under the Securities Act, in each case in accordance with all applicable U.S. state securities laws.

THE NOTES DESCRIBED HEREIN ARE DESIGNATED AS PERMANENTLY RESTRICTED NOTES. AS A RESULT THEY ARE AVAILABLE ONLY TO INVESTORS WHO ARE (1) LOCATED OUTSIDE THE UNITED STATES, AND WHO ARE (2) NON-U.S. PERSONS (AS DEFINED IN REGULATIONS UNDER THE SECURITIES ACT AND RULE 4.7 UNDER THE COMMODITY EXCHANGE ACT (AS SUCH TERMS MAY BE AMENDED FROM TIME TO TIME)).

By its purchase of a Note, each purchaser will be deemed or required, as the case may be, to have agreed that it may not resell or otherwise transfer any Note held by it except outside the United States in an offshore transaction to a person that is not a U.S. Person.

The Issuer, Trustee and Custodian or their affiliates shall not be obligated to recognize any resale or other transfer of the Notes made other than in compliance with these restrictions. Any transfer of the Notes to any person within the United States or any U.S. Person shall be void ab initio. The Issuer, Trustee and Custodian may require any person within the United States or any U.S. Person to transfer the Notes immediately to a non-U.S. Person in an offshore transaction pursuant to Regulation S. The Trustee may also redeem for cancellation any such Notes from any such person on a compulsory basis.

THE NOTES MAY NOT BE SUITABLE INVESTMENTS FOR ALL INVESTORS. NO INVESTOR SHOULD PURCHASE A NOTE UNLESS SUCH INVESTOR UNDERSTANDS, AND IS ABLE TO BEAR, THE YIELD, MARKET, LIQUIDITY, STRUCTURE, REDEMPTION AND OTHER RISKS ASSOCIATED WITH THE NOTE. FOR FURTHER DETAILS, SEE "*RISK FACTORS*" HEREIN.

This Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of the Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly, any person making or intending to make an offer in that Relevant Member State of the Notes which are subject of the offering contemplated in this Prospectus as set out in the Issue Specific Terms, may only do so (i) in circumstances in which no obligation arises for the Issuer

The Authorised Offeror is the only party authorised to use this Prospectus in connection with the offer of the Notes. Accordingly, any offer made by any other party without the consent of the Issuer is unauthorised and the Issuer does not accept any responsibility or liability for the actions of the persons making any such unauthorised offer. **In the event of an offer being made by the Authorised Offeror, the Authorised Offeror will provide information to investors on the terms and conditions of the offer at the time the offer is made.**

Any new information with respect to the Authorised Offeror unknown at the time of the approval of this Prospectus will be published and can be found at: <http://prospectus.socgen.com>.

The Issuer accepts responsibility for the content of this Prospectus in relation to any investor who acquires any Notes in an offer made by the Authorised Offeror where the offer is made during the Offer Period and is in compliance with all other conditions attached to the giving of the consent.

None of the Issuer or the Dealer makes any representation as to the compliance by the Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to the offer of the Notes and has any responsibility or liability for the actions of the Authorised Offeror.

AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY NOTES FROM THE AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH NOTES TO AN INVESTOR BY THE AUTHORISED OFFEROR WILL BE MADE IN ACCORDANCE WITH ANY TERMS AND OTHER ARRANGEMENTS IN PLACE BETWEEN THE AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING AS TO PRICE, ALLOCATIONS AND SETTLEMENT ARRANGEMENTS. THE AUTHORISED OFFEROR WILL PROVIDE SUCH INFORMATION TO THE INVESTOR AT THE TIME OF SUCH OFFER AND THE AUTHORISED OFFEROR WILL BE RESPONSIBLE FOR SUCH INFORMATION. NONE OF THE ISSUER OR ANY DEALER HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF SUCH INFORMATION.

No person is or has been authorised by any of the Issuer, the Arranger or the Dealer to give any information or to make any representation other than those contained in or consistent with this Prospectus in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by any of the Issuer, the Arranger or any Dealer.

Neither this Prospectus nor any other information supplied in connection with the Programme or the Notes (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation or a statement of opinion (or a report on either of those things) by any of the Issuer, the Trustee, the Arranger or the Dealer that any recipient of this Prospectus or any other information supplied in connection with the Programme or the Notes should purchase any Notes. Purchasers of Notes and each investor contemplating purchasing any Notes should conduct such independent investigation and analysis of the financial condition and affairs, and its own appraisal of the creditworthiness or value (as appropriate), of the Issuer and, if applicable, the Notes and the security arrangements relating to the Charged Assets as they deem appropriate to evaluate the merits and risks of an investment in the Notes. Purchasers of Notes and each investor contemplating purchasing any Notes should have sufficient knowledge and experience in financial and business matters, and access to, and knowledge of, appropriate analytical resources, to evaluate the information contained in this Prospectus (including the Issue Specific Terms) and the merits and risks of investing in the Notes in the context of their financial position and circumstances. Neither this Prospectus nor any other information supplied in connection with the Programme or the Notes constitutes an offer or invitation by or on behalf of any of the Issuer, the Trustee, the Arranger or any Dealer to any person to subscribe for or to purchase any Notes.

Investors should have sufficient knowledge and experience of financial and business matters to evaluate the merits and risks of investing in a particular issue of Notes as well as access to, and knowledge of, appropriate analytical tools to assess such merits and risks in the context of their financial situation. The Notes are not an appropriate investment for investors who are unsophisticated with respect to the Index. Investors should also have sufficient financial resources to bear the risks of an investment in Notes, which may include a total loss of their investments. For a more detailed description of the risks associated with any investment in the Notes investors should read the section of this Prospectus headed "*Risk Factors*".

Any Purchaser of the Notes will be deemed to have represented and agreed that they (i) have the knowledge and sophistication independently to appraise and understand the financial and legal terms and conditions of the Notes and to assume the economic consequences and risks thereof; (ii) to the extent necessary, have consulted with their own independent financial, legal or other advisers and have made their own investment, hedging and trading decisions in connection with the Notes based upon their own judgement and the advice of such advisers and not upon any view expressed by the Issuer, the Arranger or the Dealer; (iii) have not relied upon any representations (whether written or oral) of any other party, and are not in any fiduciary relationship with the Issuer, the Arranger or the Dealer; (iv) have not obtained from the Issuer, the Arranger or the Dealer (directly or indirectly through any other person) any advice, counsel or assurances as to the expected or projected success, profitability, performance, results or benefits of the Notes, and have agreed that the Issuer, the Arranger and the Dealer do not have any liability in that respect; (v) have not relied upon any representations (whether written or oral) by, nor received any advice from, the Issuer, the Arranger or the Dealer as to the possible qualification under the laws or regulations of any jurisdiction of the Notes described in the Issue Specific Terms and understand that nothing contained herein should be construed as such a representation or advice for the purposes of the laws or regulations of any jurisdiction.

The Notes have not been approved or disapproved by the U.S. Securities and Exchange Commission (the "**SEC**"), any state securities commission in the United States or any other U.S. regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of the offering of the Notes or the accuracy or adequacy of this Prospectus. Any representation to the contrary is a criminal offence in the United States.

Neither the delivery of this Prospectus nor the offering, sale or delivery of any Notes made in connection herewith shall, under any circumstances, create any implication (i) that there has been no change in the affairs of the Issuer since the date hereof or the date upon which this Prospectus has been most recently amended or supplemented or (ii) that there has been no adverse change in the financial position of the Issuer since the date hereof or the date upon which this Prospectus has been most recently amended or supplemented or (iii) that

the information contained herein concerning any of the Issuer is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme or the Notes is correct as of any time subsequent to the date indicated in the document containing the same.

None of the Dealer or the Arranger undertakes to review the financial condition or affairs of any of the Issuer during the life of the arrangements contemplated by this Programme or to advise any investor or potential investor in the Notes of any information coming to its attention.

To the fullest extent permitted by law, none of the Dealers or the Arranger accept any responsibility for the contents of this Prospectus or for any other statement, made or purported to be made by the Arranger or a Dealer or on its behalf in connection with the Issuer or the issue and offering of any Notes. The Arranger and each Dealer accordingly disclaims all and any liability whether arising in tort or contract or otherwise (save as referred to above) which it might otherwise have in respect of this Prospectus or any such statement.

This Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. None of the Issuer, the Trustee and the Dealer(s) represents that this Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, unless specifically indicated to the contrary in the Issue Specific Terms, no action has been taken by the Issuer, the Trustee or the Dealer(s) which is intended to permit a public offering of any Notes outside the European Economic Area ("**EEA**"), or distribution of this Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Prospectus or any Note comes are required by the Issuer, the Dealers and the Arranger to inform themselves about, and observe, any such restrictions on the distribution of this Prospectus and the offering and sale of Notes. In particular, there are certain restrictions on the distribution of this Prospectus and the offer or sale of Notes in Belgium, the EEA, France, Italy, Japan, Luxembourg, Spain, the United Kingdom and the United States (see the section headed "*Subscription, Sale and Transfer Restrictions*" of the Supplemented Base Prospectus and the provisions set out in the Issue Specific Terms).

Any hyperlinks contained in this Prospectus are provided for information purposes only and have not been reviewed or otherwise verified by the Issuer or the Arranger. C.15	Description of how the value of the investment is affected by the value of the underlying instrument(s)	<p>The Final Redemption Amount payable in respect of the Notes is partly dependent on the performance of the Index, and provided that no Early Redemption Event, Event of Default or Bail-In Event has occurred, it shall be not less than the Specified Denomination.</p> <p>The portion of the Final Redemption Amount corresponding to the Performance Component will depend on the average closing level over a series of 31 observation dates corresponding to each of the 31 Valuation Dates from the First Averaging Date to the Last Averaging Date (both included) compared to the closing level of the Index observed on the Initial Strike Date.</p> <p>The Swap Agreement and the Deposit Agreement are the assets on which the Notes are secured and have characteristics that demonstrate capacity to produce funds to service the payments due and payable in respect of the Notes. C.19	The exercise price or the final reference price of the underlying	Not Applicable. In circumstances where no Payout Switch has occurred, the basis on which the variable Option Performance forming part of the Final Redemption Amount payable under the Notes is determined is summarised in Element C.8 above and will depend on the average value of the underlying Index over a series of Valuation Dates compared to those as of the Initial Strike Date. Therefore, there is no determination made by exercise of an option at a specific exercise price or on the basis of a single final reference price in respect of an underlying asset.
C.20	A description of the type of the underlying and where the information on the underlying can be found	The Index is comprised of various components. Section D - Risks

Element	Description of Element	Disclosure requirement
D.2	Key risks regarding the Issuer	<p>There are certain factors that may affect the Issuer's ability to fulfil its obligations under the Notes. These include that the Issuer's sole business is to enter into, perform and serve as a vehicle for, any transactions permitted under the Securitisation Act 2004. The Issuer is not expected to have any assets that are available to Noteholders other than the Swap Agreement and the Deposit Agreement, and Noteholders will have no recourse to any other assets in respect of the Issuer's obligations under the Notes.</p> <p>The ability of the Issuer to meet its obligations under the Notes will be dependent on (i) both the Deposit Counterparty and the Swap Counterparty performing their obligations respectively under the Deposit Agreement and the Swap Agreement and (ii) actual receipt by it of payments due under those agreements.</p> <p>Consequently, the Issuer will be exposed to any insolvency of Societe Generale or VDK Spaarbank N.V. and more globally to the general creditworthiness of Societe Generale. Societe Generale will not provide credit support for its obligations under the Swap Agreement.</p> <p>The Issuer will be the sole party liable under the Notes. In the event of insolvency proceedings in relation to the Issuer, Noteholders bear the risk of delay in settlement of any claims they may have against the Issuer under the notes or receiving, in respect of their claims, the residual amount following realisation of the Issuer's assets after preferred creditors have been paid.</p> <p>In addition to the foregoing, the Issuer has identified in this Prospectus a number of other factors which could materially adversely affect its business and ability to make payments due under the Notes. These factors include, without limitation, risks relating to the limited recourse of Noteholders to the assets of the Issuer relating to Compartment A0072, insolvency of the Issuer and the consequences thereof; the occurrence of an Early Redemption Event in respect of the Notes and the consequences thereof and The Dodd-Frank Wall Street Reform and Consumer Protection Act, the European Markets and Infrastructure Regulation and the European Recovery and Resolution Directive.</p>
D.6	Key risks regarding the Notes and risk warning	<p>There are certain general factors to be considered for the purpose of assessing the risks associated with the Notes.</p> <p>These include the fact that the Notes may not be a suitable investment for all investors. In particular the Notes are not suitable for investors who lack the requisite knowledge and experience to evaluate the merits and risks of, or are not capable of bearing the economic risk of, an investment in the Notes. Early redemption of the Notes which may lead to a loss of investment. The Notes are subject to tax risk, risk of applicable regulations and the risk of change in law. No secondary market may exist for the Notes. This may limit the ability of investors to realise their investment for a certain period of time. Certain conflicts of interest may arise and adversely affect the Notes. The Securitisation Act 2004 provides that the Charged Assets are available to meet only the claims of the Secured Parties in relation to the Notes. The Charged Assets are exclusively allocated to the Compartment and will be kept separate</p>

		<p>from the other assets of the Issuer, in respect of its other compartments. If the Charged Assets are not sufficient to discharge all payments obligations of the Issuer in accordance with the applicable order of priority of payments, Noteholders may lose up to their entire investment. In addition, in relation to the Notes, only the Trustee may take action (including enforcement action) against the Issuer, and is not obliged to take any such action without first being indemnified and/or secured to its satisfaction.</p> <p>There are also certain factors which are material for the purposes of assessing the market and credit risks associated with the Notes and include exposure to the Index, factors affecting the value and trading price of the Notes, considerations regarding hedging, market disruption or failure to open of an exchange, additional adjustment events, post-issuance information, change in law, effect of credit rating change (in particular affecting the Deposit Counterparty and / or the Swap Counterparty), early redemption, interest rate changes, foreign exchange rate variation, and the risk that the Deposit Agreement and or the Swap Agreement may not be realisable for their full nominal value.</p> <p>The Deposit Agreement and the Swap Agreement will, along with the Issuer's rights under such agreements and any proceeds from such agreements form part of the Charged Assets.</p> <p>Investors should be aware that they may lose the value of their entire investment (together with, in addition to such investment, any amounts which may have accrued on such investment but which have not been paid, if applicable) or part of it, as the case may be.</p>

RISK FACTORS

Prospective purchasers of Notes should carefully consider the following information in conjunction with the other information contained in this Prospectus (including the Issue Specific Terms and information incorporated by reference herein) before purchasing Notes.

Investors may lose the value of their entire investment (together with, in addition to such investment, any amounts which may have accrued on such investment but which have not been paid, if applicable) or part of it, as the case may be.

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which the Issuer believes are material for the purpose of assessing the market risks associated with Notes are also described below.

The Issuer believes that the factors described below represent the material risks which are specific to the situation of the Issuer, the securities and to taking investment decisions in such securities, but the inability of the Issuer to pay principal or other amounts on or in connection with any Notes may occur for other reasons which may not be considered material risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision. No investment should be made in the Notes until after careful consideration of all those factors that are relevant in relation to the Notes. Prospective investors should reach an investment decision with respect to the suitability of the Notes for them only after careful consideration and consultation with their financial and legal advisers.

The order in which the following risks factors are presented is not an indication of the likelihood of their occurrence.

A. Risks relating to the Issuer and the Group

A.1. The Group is exposed to the risks inherent in its core businesses

Given the diversity and changes in Société Générale and its controlled entities' (the "**Group**") activities, the Group's risk management focuses on the following main categories of risk, any of which could adversely affect the Group's performance:

Capital management and capital adequacy risks

The Group's results of operations and financial situation could be adversely affected by a significant increase in new provisions or by inadequate provisioning.

If the Group makes an acquisition, it may be unable to manage the integration process in a cost-effective manner or achieve the expected benefits.

Credit risks

The Group is exposed to counterparty risk and concentration risk.

The Group's hedging strategies may not prevent all risk of losses.

Market risks

The global economy and financial markets continue to display high levels of uncertainty, which may materially and adversely affect the Group's business, financial situation and results of operations.

A number of exceptional measures taken by governments, central banks and regulators have recently been or could soon be completed or terminated, and measures at the European level face implementation risks.

The Group's results may be affected by regional market exposures.

The Group operates in highly competitive industries, including in its home market.

The protracted decline of financial markets may make it harder to sell assets and could lead to material losses.

The volatility of the financial markets may cause the Group to suffer significant losses on its trading and investment activities.

The financial soundness and conduct of other financial institutions and market participants could adversely affect the Group.

The Group may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns.

Operational risks

The Group's risk management system may not be effective and may expose the Group to unidentified or unanticipated risks, which could lead to significant losses.

Operational failure, termination or capacity constraints affecting institutions the Group does business with, or failure or breach of the Group's information technology systems, could result in losses.

The Group relies on assumptions and estimates which, if incorrect, could have a significant impact on its financial statements.

The Group's ability to retain and attract qualified employees is critical to the success of its business, and the failure to do so may materially adversely affect its performance.

Structural interest rate and exchange rate risks

Changes in interest rates may adversely affect the Group's banking and asset management businesses.

Fluctuations in exchange rates could adversely affect the Group's results of operations.

Liquidity risk

The Group depends on access to financing and other sources of liquidity, which may be restricted for reasons beyond its control.

A reduced liquidity in financial markets may make it harder to sell assets and could lead to material losses.

Non-compliance and reputational risks, legal risks

Reputational damage could harm the Group's competitive position.

The Group is exposed to legal risks that could negatively affect its financial situation or results of operations.

The Group is subject to extensive supervisory and regulatory regimes in the countries in which it operates and changes in these regimes could have a significant effect on the Group's businesses.

Social and environmental risks

The Group may incur losses as a result of unforeseen or catastrophic events, including the emergence of a pandemic, terrorist attacks or natural disasters.

A.2 Risks relating to the Issuer

Securitisation Act 2004, Compartments and Limited Recourse

The Issuer is established as a *société de titrisation* within the meaning of the Securitisation Act 2004, which provides that claims against the Issuer by the Secured Parties will, in principle, be limited to the net assets of the relevant series included in the relevant Compartment.

The board of directors of the Issuer (the "**Board**") may establish one or more compartments (together the "**Compartments**" and each a "**Compartment**") each of which constitutes either a Category A Compartment or a Category B Compartment or the Category X Compartment, each of which is a separate and distinct part of the Issuer's estate (*patrimoine*) and which may be distinguished by the nature of acquired risks or assets and, as far as each Category A Compartment and Category B Compartment is concerned, the Conditions, in each case as completed by the applicable issuance documentation, the reference currency or other distinguishing characteristics. The Conditions of the Notes issued in respect of, and the specific objects of, each Category A Compartment shall be determined by the Board. Each Secured Party shall be deemed to fully adhere to, and be bound by, the Conditions applicable to the Notes and the articles of incorporation of the Issuer (the "**Articles**" or the "**Articles of Incorporation**").

In respect of Compartment A0072 and any Note, and following a Note Acceleration in respect of such Note, the entitlement the holder of the Note has against the Issuer will be limited to such Noteholder's *pro rata* share of the proceeds of the Charged Assets applied in accordance with the Order of Priority specified in the Issue Specific Terms. If, in respect of any Note, the net proceeds of the enforcement or liquidation of the relevant Charged Assets applied as aforesaid are not sufficient to make all payments due in respect of the Note in accordance with the Order of Priority specified in the Issue Specific Terms then, (i) no other assets of the Issuer will be available to meet such Residual Shortfall Amount; (ii) the claims of the holder of the Note as against the Issuer in respect of any such Residual Shortfall Amount

shall be extinguished and (iii) neither the holder of a Note nor any person on its behalf shall have the right to petition for the winding-up of the Issuer as a consequence of any Residual Shortfall Amount or otherwise. Noteholders, by acquiring the Notes, expressly accept, and shall be deemed to be bound by, the provisions of the Securitisation Act 2004 and, in particular, the provisions with respect to limited recourse, non-petition, subordination and priority of payments.

Subject to the particular rights and limitations attaching to the Notes, as specified in the Articles or upon which such Notes are issued including, without limitation, the relevant Conditions and the Issue Specific Terms, if the net assets of the Compartment are liquidated, the proceeds thereof shall be applied in the order set out in the Conditions.

Fees, expenses and other liabilities incurred on behalf of the Issuer but which do not relate specifically to the Compartment shall, unless otherwise determined by the Board, be general liabilities of the Issuer and shall not be payable out of the assets of the Compartment. The Board shall ensure, to the extent possible (although there is no guarantee that the Board will be able to achieve this), that creditors of such liabilities waive recourse to the assets of any Compartment.

The Board shall establish and maintain separate accounting records for each of the Compartments of the Issuer. The assets of the Compartment include the proceeds of the issue of the Notes and the Related Agreements. Noteholders are therefore exposed not only to risks relating to their Series of Notes but also to actions relating to another Series of Notes issued previously or in the future as part of the same Compartment. This includes allowing for the Notes to be accelerated prior to their scheduled maturity date and for the security granted in respect of the Compartment to become due. The fees, costs and expenses in relation to the Notes of each Series are allocated to the Compartment in accordance with the relevant Conditions.

To give effect to the provisions of the Securitisation Act 2004 and the Articles under which the Charged Assets of the Compartment are available only for the Secured Parties for the relevant Series relating to that Compartment, the Issuer will seek (although there is no guarantee that the Issuer will be able to achieve this) to contract with parties on a "limited recourse" basis such that claims against the Issuer in relation to the Notes would be restricted to the Charged Assets of the Compartment.

Consequences of Winding-up Proceedings

If the Issuer fails for any reason to meet its obligations or liabilities (that is, if the Issuer is unable to pay its debts and cannot obtain further credit), a creditor, who has not (and cannot be deemed to have) accepted non-petition and limited recourse provisions in respect of the Issuer, is entitled to make an application for the commencement of insolvency proceedings against the Issuer. In that case, such creditor should however not have recourse to the assets of any Compartment (in the case that the Issuer has created one or more Compartments) but should have to exercise his rights on the general assets of the Issuer unless his rights would arise in connection with the "creation, operation or liquidation" of a Compartment, in which case, the creditor would have recourse to the assets allocated to that Compartment but he would not have recourse to the assets of any other Compartment. Furthermore, the commencement of such proceedings may in certain conditions, entitle creditors (including the relevant counterparties) to terminate contracts with the Issuer (including Related Agreements) and claim damages for any loss created by such early termination. The Issuer will seek to contract only with parties who agree not to make application for the commencement of winding-up, liquidation and bankruptcy or similar proceedings against the Issuer. Legal

proceedings initiated against the Issuer in breach of these provisions shall, in principle, be declared inadmissible by a Luxembourg court.

Creditworthiness of the Issuer

If you purchase the Notes, you are relying upon the creditworthiness of the Issuer.

Risks associated with the lack of independence of the Issuer and conflicts of interest

Save as otherwise provided herein, the Issuer is not aware of any conflict of interest that is material to the issue/offer of Notes hereunder.

Codeis Securities S.A. will act as the Issuer under the Notes. Societe Generale will act as the Swap Counterparty, Compartment Assets Manager, Disposal Agent, Market Maker, Voting Agent and Calculation Agent. As a result, investors will be exposed to potential conflicts of interest and operational risks arising from the lack of independence associated with Societe Generale acting as Swap Counterparty to the Issuer, Compartment Assets Manager, Disposal Agent, Market Maker, Voting Agent and Calculation Agent. The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within Societe Generale will be responsible for (i) providing the Swap and (iii) acting as Compartment Assets Manager, Disposal Agent, Market Maker, Voting Agent and Calculation Agent and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams. Whilst compliance procedures require effective segregation of duties and responsibilities between the relevant divisions within Societe Generale, the possibility of conflicts of interest arising cannot be wholly eliminated.

Societe Generale provides a full array of capital market products and advisory services worldwide including the issuance of "structured" Notes where interest and/or principal is/are linked to the performance of underlying assets. The Issuer and any of its affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to the Noteholders. Such actions and conflicts may include, without limitation, the exercise of voting power, the purchase and sale of securities, financial advisory relationships and the exercise of creditor rights. The Issuer and any of its affiliates have no obligation to disclose such information about the underlying assets or the companies to which they relate. The Issuer and any of its affiliates and their officers and directors may engage in any such activities without regard to the Notes or the effect that such activities may directly or indirectly have on any Note.

In particular, the following potential conflicts of interest could exist in connection with any issue of Notes in the context of this Programme:

- the Issuer is a subsidiary of Societe Generale and is within the scope of application of the corporate governance of the Group. It is not excluded that potential conflicts of interest between the Issuer and Societe Generale could affect the Noteholders;
- the Arranger, the Paying Agents, the Registrar, the Transfer Agent, Exchange Agent, Compartment Assets Manager, Disposal Agent, Market Maker, Swap Counterparty, Voting Agent and Calculation Agent are all part of the Group. A deterioration of Societe Generale's credit risk would also affect its affiliated companies and thus have a negative impact on the obligations of each of the entities listed above in relation to the Notes. If one of these entities does not respect its obligations towards the Issuer, this could have a

negative impact on the Noteholders;

- in the normal course of their activity, Societe Generale and its affiliated companies (a) could be required to carry out transactions for their own account or for the account of their clients and hold long and short term positions on the underlying assets and/or products derived from these assets and (b) could be in business relationships and act as the financial advisor for companies whose shares or notes are underlying assets and/or Notes and could be deemed to be contrary to the interests of the Noteholders;
- in the normal course of their activity, Societe Generale and its affiliated companies could possess or acquire information which is not public knowledge on the underlying assets and which are or could be important to the Notes. None of the Societe Generale company group entities intend to make this information available to the Noteholders;
- one or more of the Issuer's affiliates may engage in trading and other business activities relating to the underlying fund(s) or their underlying assets that are not for the Noteholders' accounts or on behalf of the Noteholders (see "*Certain business activities may create conflicts of interest with Noteholders*" below). In connection with the offering of the Notes, the Issuer, Societe Generale or its affiliates may enter into one or more hedging transactions with respect to the Notes, the Charged Assets or related derivatives. In connection with such hedging by the Issuer, Societe Generale or its affiliates (or any market-making activities or with respect to proprietary or other trading activities by Societe Generale) may enter into transactions in the Charged Assets or related derivatives which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the relevant Noteholders.

Alternative Investment Fund Managers Directive

The Issuer is a securitisation undertaking under the Luxembourg law of 22 March 2004 on securitisation. EU Directive 2011/61/EU on Alternative Investment Fund Managers (the "**AIFMD**") does in principle not apply to securitisation undertakings in the sense of Regulation (EC) No 24/2009 of the European Central Bank of 19 December 2008 (ECB/2008/30). In particular, the frequently asked questions of the CSSF specify that securitisation undertakings that only issue debt instruments do not qualify as alternative investment funds ("**AIFs**"). However, in certain circumstances, a securitisation undertaking might qualify as an AIF and hence, become subject to the AIFMD. The AIFMD provides that AIFs must appoint a duly-authorized alternative investment fund manager entrusted with portfolio and risk management duties (the "**AIFM**").

Should the Issuer be considered as an AIF, the Issuer would have to appoint a duly licensed AIFM, which will have to comply with various disclosure requirements and implement policies on, inter alia, conflicts of interests, risk management and valuation. This might have an impact on the fees, expenses and costs incurred by the Issuer.

Potential investors in the Notes should take independent advice and make an independent assessment about the risks relating to AIFMD in the context of any potential investment decision with respect to the Notes.

B. Factors that may affect the Issuer's ability to fulfil its obligations under the Notes

Limitations on recourse and rights with respect to underlyings

A holder of the Notes has no rights against the sponsor of the Index and no direct rights against the Swap Counterparty. The Notes are not in any way sponsored, endorsed or promoted by the sponsor of the Index and such sponsor has no obligation to take into account the consequences of their actions on the Noteholders.

Risks associated with product structure

Once the proceeds of the issue of the Notes have been invested in the Compartment Assets, the corresponding Charged Assets (including, without limitation, the Swap Agreement and the Deposit Agreement) will constitute the only source of funds available to the Issuer for the satisfaction of its pre-enforcement obligations under the Notes and the relevant Related Agreements. Accordingly, if the Deposit Agreement and/or the Swap Agreement do not generate sufficient cashflows, either:

- (i) an Early Redemption Event under the Notes may occur, which, in turn, may lead to the realisation of the Charged Assets by the Disposal Agent; or
- (ii) an Event of Default may occur under the Notes, which, in turn, may lead to the enforcement and liquidation of the relevant Charged Assets by the Trustee (or its appointee under the Trust Deed Terms).

More particularly, and pursuant to the Terms and Conditions of the Notes, the Issuer will use part of the proceeds of the issue of the Notes to make payments to VDK Spaarbank N.V. pursuant to the Deposit Agreement as well as to make payments to the Swap Counterparty pursuant to the Swap Agreement.

The ability of the Issuer to pay principal on the Notes as part of the Final Redemption Amount will be dependent on the Deposit Counterparty performing its obligations under the Deposit Agreement and the creditworthiness of the Deposit Counterparty. If the Deposit Counterparty fails to pay any amount that it is due to pay under the Deposit Agreement or it becomes insolvent or it is subject to a Bail-in Event, investors may lose the value of their entire investment or part of it, as the case may be. Following such occurrence, the Notes may be redeemed earlier or later than the Maturity Date. The price of the Notes may be volatile and will be affected by, amongst other things, the time remaining to the Maturity Date and the creditworthiness of the Deposit Counterparty, which in turn may be affected by political, economic and financial events in one or more jurisdictions.

In the event that the Deposit Counterparty fails to pay an amount due under the Deposit Agreement when due or suffers an insolvency event, an Early Redemption Event will occur and the Issuer shall notify the Noteholders through the relevant clearing systems accordingly.

The ability of the Issuer to pay the part of the Final Redemption Amount calculated by reference to the Performance Component (if any) in respect of each Note and various Interest Amounts will be dependent on the Swap Counterparty performing its obligations under the Swap Agreement. Consequently, the Issuer is exposed to the ability of Societe Generale to perform its obligations as Swap Counterparty and to the general creditworthiness of Societe Generale. Societe Generale will not provide credit support for its obligations under the Swap Agreement. The Issuer will be the sole party liable under the Notes. In the event of insolvency proceedings in relation to the Issuer, Noteholders bear the risk of delay in settlement of any claims they may have against the Issuer under the notes or receiving, in respect of their claims, the residual amount following realisation of the Issuer's assets after preferred creditors have been paid.

In the event the Swap Agreement terminates early due to a default by the Swap Counterparty and the Notes are consequently early redeemed, the Notes will cease to bear interest and the Noteholders will only receive among the Early Redemption Amount of the Notes to the extent such amount is received by the Issuer under the Swap Agreement, on or prior to the Extended Redemption Date a *pro rata* share of any termination payment received by the Issuer from the Swap Counterparty under the Swap Agreement less any costs and expenses incurred in terminating the Swap Agreement and obtaining such termination payment. Notwithstanding the foregoing where the Swap Agreement terminates early in accordance with its terms as a result of an event of default thereunder in respect of which the Issuer is the defaulting party, the Notes will be redeemed early.

Following an Early Redemption Event, the Notes may be redeemed earlier or later than the Scheduled Maturity Date. The occurrence of an event affecting either the underlying Index or the Deposit Agreement may result in an Early Redemption Event. Where the Early Redemption Event results from the failure of the Deposit Counterparty to make any payment due in respect of the Deposit Agreement or its insolvency, there may be difficulties in recovering the cash value of the Term Deposit. In such a case or in circumstances where the Issuer has not received a payment under any Charged Asset, the redemption in full of the Notes may be postponed for up to two calendar years following the earlier of the Early Redemption Date or the Maturity Date. If, by such corresponding day, the amounts are not able to be recovered, then the Noteholders may lose their entire investment amount. Investors should consider carefully the likelihood of such circumstances. There is no guarantee that any such delay in redemption will result in any payments or any additional payments to the Noteholders.

Following the Extended Redemption Date, the Issuer will have no obligation to pay any further amounts to the holders of the Notes.

The Notes are suitable for investors who expect the underlying Index to perform positively and do not expect an event relating to the creditworthiness of the Deposit Counterparty, the Swap Counterparty or any other financial institutions involved in the transaction to occur, but in view of the potential for such an event to reduce the expected returns considerably, possibly even to zero, they should be capable of sustaining an entire loss of their capital investment.

The Trustee is not responsible for ensuring that the security created by the Issuer is valid and enforceable.

Custody Arrangements

Compartment Assets (together with any related security) will, unless otherwise specified in the Issue Specific Terms, be held by the Custodian on behalf of the Issuer pursuant to the Custody Agreement (as defined in Condition 8(c)(i)). Any assets held by the Custodian may be unavailable to investors upon the bankruptcy of the Custodian or, if different, the bank or financial institution with which such assets are held.

C. General risks relating to the Notes

C.1 Set out below is a brief description of certain risks relating to the Notes generally

Independent Review and Advice

Each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its

acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

A prospective investor may not rely on the Issuer, the Arranger or the Dealer(s) or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

Modification

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Further to the occurrence of a Bail-In Event (as determined by the Swap Counterparty), the Issuer may, with the prior written consent of the Swap Counterparty but without the consent of the Trustee or the Noteholders or any other Secured Party, in its sole and absolute discretion but acting in good faith and in a commercially reasonable manner, amend from time to time any provision(s) of the Notes to incorporate and/or reflect and/or take account of any consequences of the Bail-In Event which could affect the economics of the Notes.

Assessment of Investment Suitability

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- have sufficient financial resources
- and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear applicable risks.

The Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the

value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio. The Notes may be redeemable at an amount below par and the amount of interest calculated as being due on the Notes may be zero, in which case investors may lose the value of part or their entire investment.

Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available in relation to the tax treatment of financial instruments such as the Notes. Potential investors are advised not to rely upon the tax overview contained in this Prospectus (including the Issue Specific Terms) but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, sale and redemption of the Notes. Only such adviser is in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in connection with the taxation sections of this Prospectus and the Issue Specific Terms.

Change of law

The conditions of the Notes (including any non-contractual obligations arising there from or connected therewith) are based on relevant laws in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to such laws, or the official application or interpretation of such laws or administrative practices, after the date of this Prospectus.

The proposed financial transactions tax ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional Member States may decide to participate.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

Possible Consequences under the U.S. Foreign Account Tax Compliance Act ("FATCA")

While the Notes are cleared through Clearstream, Luxembourg, (the "**Specified Clearing Systems**"), in all but the most remote circumstances, it is not expected that the new reporting regime and potential withholding tax imposed by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("**FATCA**") will affect the amount of any payment received by the Specified Clearing Systems. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer's obligations under the Notes are discharged once it has made payment to, or to the order of, the Specified Clearing Systems and the Issuer has therefore no responsibility for any amount thereafter transmitted through the Specified Clearing Systems and custodians or intermediaries. Further, foreign financial institutions in a jurisdiction which has entered into an intergovernmental agreement with the United States (an "**IGA**") are generally not expected to be required to withhold under FATCA or an IGA (or any law implementing an IGA) from payments they make.

Hiring Incentives to Restore Employment Act withholding risk

The U.S. Hiring Incentives to Restore Employment Act (the "**HIRE Act**") imposes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met. While significant aspects of the application of the relevant provisions of the HIRE Act to the Notes are uncertain, if the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Dodd-Frank Wall Street Reform and Consumer Protection Act

In the United States, passage of the Dodd-Frank Wall Street Reform and Consumer Protection Act ("**Dodd-Frank Act**") in 2010 has led to significant structural reforms affecting the financial services industry, by addressing, among other issues, systemic risk oversight, bank capital standards, the orderly liquidation of failing systemically significant financial institutions, and over-the-counter derivatives. The Dodd-Frank Act also contains prohibitions, commonly called the "Volcker Rule" which broadly prohibits banking entities from proprietary trading and sponsoring or investing in hedge, private equity and similar funds, subject to a number of exceptions.

In particular, Title VII ("**Title VII**") of the Dodd-Frank Act establishes a comprehensive U.S. regulatory regime for a broad range of derivatives contracts (collectively referred to in this risk factor as "**covered swaps**"). Among other things, Title VII provides the Commodity Futures Trading Commission ("**CFTC**") and the SEC with jurisdiction and regulatory authority over many different types of derivatives, requires the establishment of a comprehensive registration and regulatory framework applicable to dealers in covered swap and other major market

participants, requires the reporting of data on covered swaps, requires many types of covered swaps to be exchange-traded or executed on a swap execution facilities and centrally cleared, and contemplates the imposition of capital requirements and margin requirements for uncleared transactions in covered swaps.

Many of the key regulations implementing Title VII have recently become effective or are in final form. However, in some instances, the interpretation and potential impact of these regulations are not yet entirely clear. Additionally, not all of the regulations, particularly with respect to margining requirements for non-cleared covered swaps and requirements for security-based swaps more generally, have been finalised and made effective. Due to this uncertainty, a complete assessment of the exact effects of Title VII cannot be made at this time. Accordingly, there is no assurance that the any swaps entered into by the Issuer would not be treated as covered swaps under the Dodd-Frank Act, nor is there assurance that the Issuer or the applicable swap counterparty would not be required to comply with additional regulation under the Commodity Exchange Act, including by the Dodd-Frank Act.

In particular, any swaps entered into by the Issuer may include agreements that are regulated as covered swaps under Title VII, each of which may be subject to new clearing, execution, capital, margin posting, reporting and recordkeeping requirements under the Dodd-Frank Act that could result in additional regulatory burdens, costs and expenses (including extraordinary, non-recurring expenses of the Issuer). Such requirements may disrupt the Issuer's ability to hedge their exposure to various transactions, and may materially and adversely impact a transaction's value or the value of the Notes. While the Dodd-Frank Act provides for the grandfathering of certain swaps, such grandfathering may not apply to the transactions entered into by the Issuer or may only apply to certain transactions. Additionally, the Issuer cannot be certain as to how these regulatory developments will impact the treatment of the Notes.

Given that the full scope and consequences of the enactment of the Dodd-Frank Act and the rules promulgated and to be promulgated thereunder are not yet known, investors are urged to consult their own advisors regarding the suitability of an investment in any Notes under the Programme.

In addition, the Dodd-Frank Act, amending the Commodity Exchange Act, expanded the definition of a "commodity pool" to include any form of enterprise operated for the purpose of trading in commodity interests, including swaps. The Issuer has imposed certain restrictions on sales in order to fall outside the scope of the Commodity Exchange Act. However, if the Issuer were deemed to be a "commodity pool", then both the commodity pool operator and the commodity trading advisor of the Issuer would be required to register as such with the CFTC and the National Futures Association. While there remain certain limited exemptions from registration, it is unclear whether and to what extent any of these exemptions would be available to avoid registration with respect to the Issuer. In addition, if the Issuer were deemed to be a "commodity pool", it would have to comply with a number of reporting requirements that are designed to apply to traded commodity pools. It is presently unclear how the Issuer could comply with certain of these reporting requirements on an on-going basis. Such registration and other requirements would involve material on-going costs to the Issuer, thereby materially and adversely impacting a Note's value.

In addition, other regulatory bodies have proposed or may propose in the future regulations (such as MiFID II as regards to which see below) similar to those required by Dodd-Frank Act or other regulations containing other restrictions that could adversely impact the liquidity of and increase costs of entering into derivatives transaction.

If these regulations are adopted and/or implemented or other regulations are adopted in the future, they could have an adverse impact on the return on and value of the Notes.

Furthermore, potential inconsistency between regulations issued by different regimes could lead to market fragmentation.

European Market Infrastructure Regulation and Markets in Financial Instruments Directive

European Regulation 648/2012, known as the European Market Infrastructure Regulation ("**EMIR**") entered into force on 16 August 2012 and took direct effect in the member states of the European Union. Under EMIR certain over-the-counter ("**OTC**") derivatives that are traded in the European Union by financial counterparties ("**FCs**"), such as investment firms, credit institutions and insurance companies, and certain non-financial counterparties ("**NFCs**") have to be cleared (the "**clearing obligation**") via an authorised central clearing counterparty (a "**CCP**"). In addition, EMIR requires the reporting of OTC derivative contracts to a trade repository (the "**reporting obligation**") and introduces certain risk mitigation requirements in relation to OTC derivative contracts that are not cleared by a CCP.

Under EMIR, a CCP will be used to meet the clearing obligation by interposing itself between the counterparties to the eligible derivative contracts. CCPs will connect with derivative counterparties through their clearing members. Each derivative counterparty which is required to clear OTC derivative contracts will be required to post both initial and variation margin to the clearing member, which will in turn be required to post margin to the CCP. EMIR requires CCPs to only accept highly liquid collateral with minimal credit and market risk. Where an NFC which enters into an OTC derivative contract which is not "eligible" for clearing, it will have to ensure that appropriate procedures and arrangements are in place to monitor and minimise operational and credit risk.

The Issuer has to apply certain risk mitigation techniques in relation to timely confirmation, portfolio reconciliation and compression, and dispute resolution that are applicable to OTC derivatives contracts that are not cleared by a CCP. Further, the Issuer is required to deliver certain information about any OTC derivative contract. EMIR also imposes a record-keeping requirement pursuant to which counterparties must keep records of any derivative contract they have concluded and any modification for at least five years following the termination of the contract.

The EU regulatory framework relating to derivatives is set not only by EMIR but also by the amending Directive to the existing Markets in Financial Instruments Directive published in the Official Journal on 12 June 2014 ("**MiFID II**"). Member States are required to implement national legislation giving effect to MiFID II within 24 months after the entry into force of MiFID II (i.e. June 2016) which national legislation must apply within 30 months after the entry into force of MiFID II (January 2017). In particular, MiFID II is expected to require all transactions in OTC derivatives to be executed on a trading venue. In this respect, it is difficult to predict the full impact of these regulatory requirements on the Issuer.

Investors in the Notes should be aware that the regulatory changes arising from EMIR and MiFID II may in due course significantly raise the costs of entering into derivative contracts and may adversely affect the Issuer's ability to engage in transactions in OTC derivatives. As a result of such increased costs or increased regulatory requirements, investors may receive lower returns. Investors should be aware that such risks are material and that the Issuer could be materially and adversely affected thereby. The full impact of EMIR and of MiFID II remains to be clarified and the scope of their possible implications for investors in the Notes cannot currently be predicted. As such, investors should consult their own independent advisers and make their own assessment about the potential risks posed by EMIR and MiFID II and technical implementation in making any investment decision in respect of the Notes

The European Recovery and Resolution Directive

On 2 July 2014, the Directive 2014/59/EU of the Parliament and of the Council of the European Union establishing a framework for the recovery and resolution of credit institutions and investment firms (the “RRD”) entered into force. It is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system.

The RRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures or supervisory action would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest:

(i) the sale of business – which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms;

(ii) the creation and use of a bridge institution – which enables resolution authorities to transfer all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control);

(iii) asset separation – which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this may only be used together with another resolution tool); and

(iv) a bail-in tool which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims, including Notes, to equity, which equity could also be subject to any future application of the general bail-in tool.

The RRD also provides as a last resort the right for a Member State, having assessed and utilised the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

An institution will be considered as failing or likely to fail when it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

When applying the bail-in, the resolution authority must first reduce or cancel common equity tier one, thereafter reduce, cancel, convert additional tier one instruments, then tier two instruments and other subordinated debts to the extent required and up to their capacity. If and if only this total reduction is less than the amount needed, the resolution authority will reduce or convert to the extent required the principal amount or outstanding amount payable in respect of unsecured creditors in accordance with the hierarchy of claims in normal insolvency proceedings.

The RRD provides that it will be applied by Member States from 1 January 2015, except for the senior debt bail-in tool which is to be applied from 1 January 2016 at the latest. The powers set out in the RRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors.

The Deposit Counterparty, as a financial institution, shall be in the scope of the RRD, and consequently the Deposit Agreement may be impacted by bail-in resolutions decided by any relevant authority towards the Deposit Counterparty. Consequently, once the RRD is implemented in EU countries, amounts due under the Deposit Agreement by the Deposit Counterparty to the Issuer may be subject to write-down, or may be converted into equity instruments on any application of the senior debt bail-in tool, and the Noteholders may lose part of or the entirety of their investment.

The exercise of any power under the RRD or any suggestion of such exercise in respect of the Deposit Counterparty could:

- (i) materially adversely affect the rights of the Issuer as depositor, and consequently the price or value of the Noteholders' investment in the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes;
- (ii) lead to the Notes being redeemed after the Scheduled Maturity Date; and/or
- (iii) have a negative effect on the liquidity of the Notes, and even render the Notes entirely illiquid, which may make it impossible to sell the Notes and result in the partial or total loss of the invested amount.

No legal and tax advice

Each prospective investor should consult its own advisers as to the legal, tax and related aspects of an investment in the Notes. A Noteholder's effective yield on the Notes may be diminished by tax imposed on that Noteholder in respect of its investment in the Notes.

A Noteholder's actual yield on the Notes may be reduced from the stated yield by transaction costs.

Transfer Restrictions

The Notes are Permanently Restricted Notes. The Notes, or any interest therein, may not be offered, sold, unsold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. Person. Such restrictions on transfer may limit the liquidity of such Notes. Consequently, a Purchaser must be prepared to hold such Notes for an indefinite period of time and potentially until their maturity.

Any sale or transfer of Notes in the United States or to, or for the account or benefit of, U.S. Persons in violation of such transfer restrictions or any sale or transfer of the Notes that would cause the Issuer or any Compartment to become required to register as an investment company under the Investment Company Act will be void *ab initio* and will not be honoured by the Issuer, except to the extent otherwise required by law. In addition, the Issuer may, in its discretion, redeem the Notes held by such Purchaser or other transferee or compel any such Purchaser or other transferee to transfer such Notes. Any such redemption or forced transfer may result in a significant loss of a Noteholder's investment.

Investment Company Act

The Issuer has not registered with the United States Securities and Exchange Commission (the "SEC") as an investment company pursuant to the Investment Company Act. Investors in the Notes will not have the protections of the Investment Company Act.

If the SEC or a court of competent jurisdiction were to find that the Issuer is required, but in violation of the Investment Company Act, has failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the Issuer could sue the Issuer and recover any damages caused by the violation; and (iii) any contract to which the Issuer is party that is made in, or whose performance involves, a violation of the Investment Company Act would be unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act. Should the Issuer be subjected to any or all of the foregoing, the Issuer would be materially and adversely affected.

A Noteholder's actual yield on the Notes may be reduced from the stated yield by transaction costs.

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the current price of the security. These incidental costs may significantly reduce or even exclude the profit potential of the Notes. For instance, credit institutions as a rule charge their clients for own commissions which are either fixed minimum commissions or pro-rata commissions depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Noteholders must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of securities (direct costs), Noteholders must also take into account any follow-up costs (such as custody fees). Prospective investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

Legality of Purchase

Neither the Issuer, the Arranger, the Dealer(s) nor any of their affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor in the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory rule applicable to it.

C.2 Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk

Reliance on Euroclear and Clearstream, Luxembourg procedures

Notes will be represented on issue by a Global Note(s) deposited with a common depository for Euroclear and Clearstream, Luxembourg (each as defined under "Form of the Notes"). Except in the circumstances described in the Global Note, investors will not be entitled to receive Notes in definitive form. Each of Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the beneficial interests in each Global Note held through it. While the Notes are represented by a Global Note, investors will be able to trade their beneficial interests only through the relevant clearing systems and their respective participants.

While the Notes are represented by Global Note(s), the Issuer will discharge its payment obligation under the Notes by making payments through the relevant clearing systems. A holder of a beneficial interest in a Global Note must rely on the procedures of the relevant clearing system and its participants to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in any Global Note.

Holders of beneficial interests in a Global Note will not have a direct right to vote in respect of the Notes so represented. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

The secondary market generally

No application has been made to list the Notes on any stock exchange. Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

The rate of interest payable on the Notes or the amount payable on redemption of the Notes may in certain circumstances be changed during the life of the Notes

The rate of interest may be switched from one rate to another at the Issuer's election. The amount payable on redemption may be switched from one amount payable to another at the Issuer's election. As the payout and/or interest rate on such Notes may be switched during the life of the Notes investors may receive a return which differs from that which they expected to receive.

The Issuer shall make such elections if the Swap Counterparty makes a corresponding election in its sole and absolute discretion under the Swap Agreement.

D. Risk Factors associated with the Notes being linked to the Index

The performance of the Notes is linked to the Index and therefore investors should be aware of the following risk factors:

General

Investments in securities where payment is dependent in part upon the level of an index, such as the Notes, entail significant risks and may not be appropriate for investors lacking financial expertise. The return of the Notes is partly based on the performance of an equity index (the

"Index Reference Asset") which value fluctuates. Changes in the value of the Index Reference Asset cannot be predicted. Although historical data with respect to the Index Reference Asset is available, the historical performance of the Index Reference Asset should not be taken as an indication of future performance.

As a result, potential investors should be aware that:

- (a) the market price of their Notes may be volatile; and
- (b) the Index Reference Asset may be subject to significant fluctuations that may not correlate with changes in other indices.

Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in the Notes and the suitability of the Notes in light of its particular circumstances.

Return does not reflect dividends

Depending upon the calculation methodology of an index, where the performance of an index is taken into account in order to calculate payments due under the Notes the payment of income (such as dividends for an index that has stocks as underlyings) may not be reflected as the index may be calculated by reference to the prices of the underlyings comprising the index without taking into consideration the value of any income paid on those underlying assets. Therefore, the yield to maturity of the Notes may not be the same as the yield that would be produced if such underlying assets were purchased and held for a similar period.

Specific risks relating to indices

Notes based on an index are subject to risks broadly similar to those attending any investment in a broadly-based portfolio of assets including, without limitation, the risk that the general level of prices for such assets may decline. The following is a list of some of the significant risks associated with an index:

- historical performance of the index does not indicate the future performance of the index. It is impossible to predict whether the value of the index will fall or rise during the term of the Notes; and
- if the index comprises underlying stocks, the trading prices of the stocks underlying the index will be influenced by political, economic, financial, market and other factors. It is impossible to predict what effect these factors will have on the value of any asset related to the index and, in turn, the return on the Notes.

The policies of the sponsor of an index (including a sponsor that is affiliated with Societe Generale) concerning additions, deletions and substitutions of the assets underlying the index and the manner in which the index sponsor takes account of certain changes affecting such underlying assets may affect the value of the index. The policies of an index sponsor with respect to the calculation of an index could also affect the value of the index. An index sponsor may discontinue or suspend calculation or dissemination of information relating to its index. Any such actions could affect the value of the Notes. See the section in the Supplemented Base Prospectus headed "Equity Technical Annex" for more details.

Claims against the Index

The Notes do not represent a claim against the Index, to which the redemption amount of the Notes is in part linked, (or any issuer, sponsor, manager or other connected person in respect of the Index) and Noteholders will not have any right of recourse under the Notes to the Index (or any issuer, sponsor, manager or other connected person in respect of the Index). The

Notes are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of the Index and such entities have no obligation to take into account the consequences of their actions on any Noteholders.

In addition, indices may be subject to management fees and other fees as well as charges that are payable to the index sponsor(s) and which can reduce amounts payable to Noteholders. Such fees may be paid to index sponsors that are affiliates of Societe Generale.

Investors' yield may be lower than the yield on a standard debt security of comparable maturity

Unlike conventional fixed rate or floating rate debt securities, the Notes do not provide investors with periodic payments of interest, unless the Switch Option has been exercised by the Issuer. Further, to the extent that any amount payable under the Notes (including, without limitation, the Final Redemption Amount or Early Redemption Amount of the relevant Notes) is partly calculated by reference to the performance of the Index Reference Asset (please refer to the Performance Component), the effective yield to maturity of the Notes may be less than that which would be payable on a conventional fixed rate or floating rate debt security. The return of only the relevant Performance Component of each Note may not compensate the holder for any opportunity cost implied by inflation and other factors relating to the value of money over time.

Adjustment or Substitution to the Index

The Calculation Agent may, in certain circumstances, proceed to adjustments or substitutions it determines appropriate to the terms of the Notes in particular upon the occurrence of events affecting the Index Reference Asset. The Calculation Agent could even notify the Issuer that it has not determined any appropriate adjustment or substitution, following which the Issuer will early redeem the Notes. In the absence of manifest or proven error, these adjustments, substitutions or early redemption decisions will be binding upon the Issuer, the Swap Counterparty, the Agents and the Noteholders. Such action may have an adverse effect on the value and liquidity of the Notes. In all such cases, the early redemption of the Notes may result in the total or partial loss of the amount invested.

E. Risks relating to the market value of the Notes

The market value of the Notes will be affected by the creditworthiness of the Deposit Counterparty and a number of additional factors, including the market interest and yield rates and the time remaining to the maturity date.

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France, Luxembourg, Belgium and elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser.

F. Risks relating to the Deposit Counterparty

Like other banks, VDK Spaarbank N.V. faces financial risk in the conduct of its business, such as credit risk, operational risk and market risk (including liquidity risk). Furthermore, VDK Spaarbank N.V. faces regulatory risk, the uncertain economic conditions and the competition across all the markets.

Credit risk

As a credit institution, VDK Spaarbank N.V. is exposed to the creditworthiness of its customers and counterparties. VDK Spaarbank N.V. may suffer losses related to the inability of its customers or other counterparties to meet their financial obligations. VDK Spaarbank N.V. cannot assume that its level of provisions will be adequate or that it will not have to make significant additional provisions for possible bad and doubtful debts in future periods. VDK Spaarbank N.V.'s Risk Management oversees its risk policy and is responsible for, inter alia, setting and managing the risk surveillance function and decision processes and implementing bank-wide risk assessment methods for each of the bank's activities and operational entities.

Market risk

Market risks are all the risks linked to the fluctuations of market prices, including, principally, exposure to loss arising from adverse movements in interest rates, and, to a lesser extent, foreign exchange rates and equity prices, stemming from VDK Spaarbank N.V.'s activities. Market risks generated by capital markets activities stems mainly from short-term cash management and a portfolio of derivative products with customers that is managed on a market value basis. Market risks generated by the commercial businesses are generally hedged and residual risks are handled by its Asset and Liability Management function.

Operational risk

Within VDK Spaarbank N.V., operational risk comprises the exposure to loss from inadequate or failed internal processes, people and systems or from external events (such as, but not limited to natural disasters and fires), risk relating to the security of information systems, litigation risk and reputational risk. Operational risks are inherent in all activities within the organization, in outsourced activities and in all interaction with external parties. VDK Spaarbank N.V.'s operational risk management framework, is responsible for, inter alia, coordinating the collection of risk event data and risk and control self-assessment within its different activities, defining methodological principles, selecting adequate tools and ensuring global consistency. Unforeseen events such as severe natural catastrophes, terrorist attacks or other states of emergency can lead to an abrupt interruption of VDK Spaarbank N.V.'s operations, which can cause substantial losses. Such losses can relate to property, financial assets, trading positions and to key employees. Such unforeseen events can also lead to additional costs (such as relocation of employees affected) and increase VDK Spaarbank N.V.'s costs (such as insurance premiums). Such events may also make insurance coverage for certain risks unavailable and thus increase VDK Spaarbank N.V.'s risk.

As with most other banks, VDK Spaarbank N.V. relies heavily on communications and information systems to conduct its business. Any failure or interruption or breach in security of these systems could result in failures or interruptions in VDK Spaarbank N.V.'s customer relationship management, general ledger, deposit, servicing and/or loan organization systems. VDK Spaarbank N.V. cannot provide assurances that such failures or interruptions will not occur or, if they do occur, that they will be adequately addressed. The occurrence of any failures or interruptions could have a material adverse effect on VDK Spaarbank N.V.'s financial condition and results of operations.

Liquidity risk

The objective of liquidity management is to ensure that, at all times, VDK Spaarbank N.V. holds sufficient funds to meet its contracted and contingent commitments to customers and counterparties, at an economic price. All the main issues regarding liquidity risk are managed

by VDK Spaarbank N.V.'s Asset and Liability Management team, which carefully manages resources and their use, in particular, the adequacy of expected new lending production with the available resources and VDK Spaarbank N.V.'s liquidity needs.

Regulatory risk

VDK Spaarbank N.V.'s business activities are subject to substantial regulation and regulatory oversight in the jurisdiction in which it operates. Current and future regulatory developments, including changes to accounting standards and the amount of regulatory capital required to support risks, could have an adverse effect on VDK Spaarbank N.V. conducting business and on the results of its operations. In particular, governmental and regulatory authorities in Belgium may in the future introduce a significantly more restrictive regulatory environment including new accounting and capital adequacy rules, restriction on termination payments for key personnel in addition to new regulation of derivative instruments. VDK Spaarbank N.V.'s business and earnings are also affected by fiscal and other policies that are adopted by the various regulatory authorities of the European Union, foreign governments and international agencies. The nature and impact of future changes in such policies are not predictable and are beyond VDK Spaarbank N.V.'s control.

Uncertain economic conditions

VDK Spaarbank N.V.'s business activities are dependent on the level of banking, finance and financial services required by its customers. In particular, levels of borrowing are heavily dependent on customer confidence, market interest rates and other factors that affect the economy. The profitability of VDK Spaarbank N.V.'s businesses could, therefore, be adversely affected by a worsening of general economic conditions in its markets, as well as by foreign and domestic trading market conditions and/or related factors, including governmental policies and initiatives. An economic downturn or significantly higher interest rates could increase the risk that a greater number of VDK Spaarbank N.V.'s customers would default on their loans or other obligations to VDK Spaarbank N.V., or would refrain from seeking additional borrowing. A sovereign debt crisis - as experienced in recent years - could have similar consequences and, hence, affect VDK Spaarbank N.V..

Competition

VDK Spaarbank N.V. faces strong competition across all its markets from local and international financial institutions including banks, life insurance companies and mutual insurance organizations. While VDK Spaarbank N.V. believes it is positioned to compete effectively with these competitors, there can be no assurance that increased competition will not adversely affect VDK Spaarbank N.V. in one or more of the markets in which it operates.

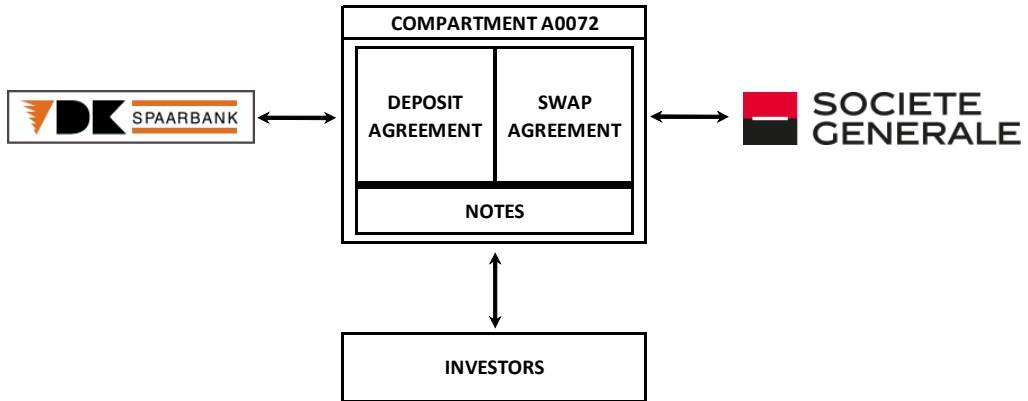

Risk Management

Monitoring of the risks relating to VDK Spaarbank N.V. and its operations and the banking industry is performed jointly by the appropriate committees and the Risk Management department, with the help of tools that it develops, in compliance with the guidelines established by VDK Spaarbank N.V. and all legal constraints and rules of prudence.

TAXATION

The statements below herein regarding taxation are based on the laws in force as of the date of this Prospectus and are subject to any changes in law. The following overview does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes and it is not intended to be, nor should it be construed to be, legal or tax advice. Each prospective holder or beneficial owner of Notes should consult its tax adviser as to the effect of the state, local or foreign laws, including the tax laws of Luxembourg and Belgium, as applicable, of any investment in or ownership and disposition of the Notes.

1. LUXEMBOURG

The statements herein regarding withholding tax considerations in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg as of the date of this Prospectus and are subject to any changes in law.

The following information is of a general nature only, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the Luxembourg tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject and as to their tax position, as a result of the purchase, ownership and disposal of the Notes.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

1.1. **Withholding Tax**

Under Luxembourg tax law currently in effect and with the possible exception of interest paid to Luxembourg resident individual holders of the Notes and certain entities, there is no Luxembourg withholding tax on payments of interest (including accrued but unpaid interest) or upon repayment of principal in case of redemption or repurchase of the Notes.

1.1.1 *Non-resident holders of Notes*

Under Luxembourg general tax laws currently in force, there is no Luxembourg withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of the Notes.

1.1.2 *Resident holders of Notes*

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the "**Relibi Law**"), there is no Luxembourg withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by Luxembourg resident holders of the Notes.

Under the Relibi Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg or to a so-called residual entity (within the meaning of the amended Luxembourg laws of 21 June 2005 implementing the Council Directive 2003/48/EC on the taxation of savings income and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the "**Territories**")),

as amended) established in an EU Member State (other than Luxembourg) or one of the Territories and securing such payments for the benefit of such individual beneficial owner will be subject to a withholding tax of 10 %. Even though the Council Directive 2003/48/EC, as amended, has been repealed on 10 November 2015, the provisions of the Luxembourg law, as described above, remain applicable. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. According to the Relibi Law, payments of interest under the Notes paid by a paying agent established in the EU (other than Luxembourg), in the European Economic Area or in the Territories may be subject to Luxembourg taxation at a rate of 10%.

2. BELGIUM

Set out below is an overview of certain Belgian tax consequences of acquiring, holding and selling the Notes. This overview is not intended to be an exhaustive description of all relevant Belgian tax considerations and investors should consult their own tax advisers regarding such considerations in relation to their own particular circumstances. The description of certain Belgian taxes set out below is for general information only and does not purport to be comprehensive.

This overview is based on current legislation, published case law and other published guidelines and regulations as in force at the date of this Prospectus and remains subject to any future amendments, which may or may not have retroactive effect.

2.1 Belgian income tax

The interest component of payments on the Note made by or on behalf of the Issuer is as a rule subject to Belgian withholding tax, currently at a rate of 27% on the gross amount. Double taxation conventions may, under certain conditions, provide for a lower rate or an exemption.

For Belgian income tax purposes, interest includes (i) periodic interest income, (ii) any amounts paid by the Issuer in excess of the issue price (upon full or partial redemption whether or not at maturity, or upon purchase by the Issuer), and (iii) if the Notes qualify as fixed income securities pursuant to Article 2, §1, 8° of the Belgian Income Tax Code 1992 (ITC 92), in case of a sale of the Notes between interest payment dates to any third party, excluding the Issuer, the pro rata of accrued interest corresponding to the detention period.

For the purpose of the overview below, a Belgian resident is (i) an individual subject to Belgian personal income tax (i.e., an individual who has his domicile in Belgium or has his seat of wealth in Belgium, or a person assimilated to a Belgian resident), (ii) a company subject to Belgian corporate income tax (i.e., a company that has its registered office, its main establishment, its administrative seat or its seat of management in Belgium), or (iii) a legal entity subject to Belgian legal entities tax (i.e., an entity other than a company subject to corporate income tax having its registered office, its main establishment, its administrative seat or its seat of management in Belgium).

A non-resident is a person who is not a Belgian resident.

2.1.1 Belgian resident individuals

For individuals subject to Belgian personal income tax who are not holding Notes as professional investors, all interest payments (as defined in the Belgian Income Tax Code) will be subject to the tax regime described below.

If interest is paid through a Belgian intermediary, such intermediary must levy withholding tax. For Belgian resident individuals (i.e. individuals subject to Belgian personal income tax *Personenbelasting/Impôt des personnes physiques*) holding the Notes as a private investment the withholding tax, currently at 27%, will fully discharge them from their tax liability with respect to these interest payments (*précompte mobilier libérateur / bevrijdende roerende voorheffing*). Therefore, they do not have to declare the interest

obtained on the Notes in their personal income tax return, provided withholding tax was levied on these interest payments. Belgian resident individuals may nevertheless elect to declare the interest in their personal income tax return. Where the beneficiary opts to declare them, interest payments will normally be taxed at the interest withholding tax rate of 27%, (or, if it is lower, at the progressive personal tax rates taking into account the taxpayer's other declared income), and no local surcharges will be due. If the interest payment is declared, any withholding tax retained may be credited is refundable to the extent that it exceeds the total personal income tax due.

If no withholding tax has been levied (because the interest was not paid through a Belgian intermediary), Belgian resident individuals must declare the interest in their personal income tax return and this interest payment will normally be taxed at a separate tax rate of 27%, (or, if it is lower, at the progressive personal tax rates taking into account the taxpayer's other declared income), and no local surcharges will be due.

Any capital gain upon a sale of Notes, not allocated to the professional activity of the individual, to a party other than the Issuer, except for that part of the sale price attributable to the pro rata interest component, is in principle tax exempt (unless the tax authorities can prove that the capital gain does not result from the normal management of a non-professional investment).

As of 1 January 2016, the so-called speculation tax of 33% however applies on certain Notes quoted on a Belgian or foreign regulated market or on a trading facility or market which have been acquired for consideration less than 6 months before their disposal for consideration (within the normal management of a non-professional investment). Losses on the Notes held as a non-professional investment cannot usually be deducted.

2.1.2 Belgian resident companies

Interest paid through an intermediary established in Belgium to a Belgian company (i.e. companies subject to Belgian corporate income tax - *impôt des sociétés/Vennootschapsbelasting*, currently at 33.99% or, subject to certain conditions, at the lower rates applicable for small and medium sized companies), will generally be subject to Belgian withholding tax (the current applicable withholding tax rate is 27%). If Belgian withholding tax is applicable, Belgian companies are, in principle, entitled to set off Belgian withholding tax against their corporate income tax liability. The withholding tax is also refundable to the extent that it exceeds the total corporate income tax due.

If no withholding tax has been levied (because the interest was not paid through a Belgian intermediary), Belgian companies must declare the interest in their income tax return.

Capital gains realised in respect of the Notes will be part of taxable income. Capital losses realised upon the sale of the Notes are in principle tax deductible.

2.1.3 Non-resident companies

Non-resident companies holding the Notes via a Belgian permanent establishment are subject to a tax of 33.99%. Interest paid through an intermediary established in Belgium to a Belgian permanent establishment will generally be subject to Belgian withholding tax (the current applicable withholding tax rate is 27%). If Belgian withholding tax is applicable, Belgian permanent establishments are, in principle, entitled to set off Belgian withholding tax against their tax due. The withholding tax is also refundable to the extent that it exceeds the total tax due.

If no withholding tax has been levied (because the interest was not paid through a Belgian intermediary), Belgian permanent establishments must declare the interest in their tax return.

Capital gains realised in respect of the Notes will be taxable. Capital losses realised upon the sale of the Notes are in principle tax deductible.

.2.1.4 Other Belgian legal entities subject to the legal entities income tax

Legal entities resident in Belgium (i.e. legal entities subject to Belgian legal entities tax) are subject to a withholding tax of 27% on interest payments. The withholding tax constitutes the final taxation. Legal entities resident in Belgium which have received gross interest income are required to pay the amount of the Belgian withholding tax themselves.

Capital gains realised on the disposal of the Notes are as a rule tax exempt (unless it qualifies as interest on Notes considered fixed income securities referred to under "Belgian income tax" section). Capital losses are in principle not tax deductible. Capital gains realised in respect of the Notes will be part of taxable income. Capital losses realised upon the sale of the Notes are in principle tax deductible.

2.1.5 Organisations for financing pensions

Interest and capital gains derived by Organisations for Financing Pensions as defined in the Law of 27 October 2006 on the activities and supervision of institutions for occupational retirement provision, are in principle subject to Belgian corporate income tax, but have a limited taxable base. Capital losses are in principle not tax deductible. Any Belgian withholding tax that has been levied can, in general, be credited against any corporate income tax due and any excess amount is in principle refundable.

2.2 Tax on stock exchange transactions

A stock exchange tax (Taxe sur les opérations de bourse/Taks op de beursverrichtingen) will be levied on the purchase and sale in Belgium of the Notes on a secondary market through a professional intermediary. The rate applicable for secondary sales and purchases in Belgium through a professional intermediary is 0.09 % with a maximum amount of Euro 650 per transaction and per party. The tax is due separately by each party to any such transaction, i.e. the seller (transferor) and the purchaser (transferee), both collected by the professional intermediary.

However, the tax referred to above will not be payable by exempt persons acting for their own account, including investors who are Belgian non-residents, provided, however, that they deliver an affidavit to the financial intermediary in Belgium confirming their non-resident status and certain Belgian institutional investors, as defined in Article 126/1.2^o of the Code of various duties and taxes (Code des droits et taxes divers/Wetboek diverse rechten en taksen).

3. UNITED STATES

The following is an overview of certain material U.S. federal income tax consequences of the ownership and disposition of the Notes by holders, but is not purported to be a complete analysis of all potential tax effects. This overview is based upon the Code, existing and proposed U.S. Treasury regulations promulgated thereunder, and published rulings and court decisions, all as in effect and existing on the date of this Prospectus and all of which are subject to change at any time with retrospective or prospective effect.

This overview is for general information only and does not address all of the tax consequences that may be relevant to holders. In addition, except to the extent explicitly provided below, this overview does not address any of the tax consequences to holders that may be subject to special rules, such as financial institutions, tax-exempt organisations, Non-U.S. Holders (as defined below), insurance companies, regulated investment companies, real estate investment trusts, personal holding companies, controlled foreign corporations, passive foreign investment companies, broker-dealers in securities or currencies, traders in securities that elect to use the mark-to-market method of accounting for their securities, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, entities classified as partnerships for U.S. federal income tax purposes, and non-resident alien individuals who have lost their U.S. citizenship or who have ceased to be treated as U.S. resident aliens. Further, this overview does not address:

- the U.S. federal income tax consequences to shareholders in, or partners or beneficiaries of, an entity that is a holder of the Notes;

- the U.S. federal gift or alternative minimum tax consequences of the acquisition, ownership or disposition of the Notes;
- persons that will hold the Notes as part of a position in a "straddle" or as part of a "constructive sale" or a "hedging," "conversion" or other integrated transaction;
- any tax consequences arising under any state, municipality, foreign country or other taxing jurisdiction; or
- holders that own, directly, indirectly or constructively, 10 per cent. or more of the voting shares of the Issuer.

A "U.S. Holder" means a beneficial owner of a Note that, for U.S. federal income tax purposes, is:

- (a) an individual who is a citizen or individual resident of the United States, as defined in Section 7701(b) of the Code;
- (b) a corporation, including any entity treated as a corporation for U.S. federal income tax purposes, created or organised in or under the laws of the United States, any state thereof or the District of Columbia;
- (c) an estate the income of which is subject to U.S. federal income tax without regard to its source; or
- (d) a trust if: (i) a court within the United States is able to exercise primary supervision over the administration of the trust, and one or more United States persons have the authority to control all substantial decisions of the trust; or (ii) such trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person.

The term "Non-U.S. Holder" means a beneficial owner of a Note that is not a partnership, and that is, for U.S. federal income tax purposes, not a U.S. Holder. If a partnership holds the Notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. Partners of partnerships holding the Notes should consult their tax advisers regarding the U.S. federal income tax consequences of acquiring, owning, exchanging and disposing of the Notes.

Prospective investors should consult their tax advisers regarding the U.S. federal, state, local and foreign tax consequences (and reporting requirements) of acquiring, owning and disposing of the Notes in light of such investor's own circumstances, including such investor's status as a U.S. Holder or Non-U.S. Holder, as well as any other estate, gift, or other tax consequences (or reporting requirements) that may arise under the laws of any state, local, foreign or other taxing jurisdiction.

The Issuer generally intends to treat the Notes as debt for U.S. federal tax purposes. Certain Notes, however, such as Index Linked Notes or Notes with maturities in excess of 30 years, may be treated as equity or as financial contracts for U.S. federal income tax purposes. Holders may be subject to a variety of U.S. tax consequences depending on the subject and the terms of the Notes. Holders should consult their advisers about the tax consequences of purchasing Notes, particularly whether the Notes being acquired could be treated for U.S. tax purposes as debt instruments or as another type of financial instrument.

3.1. U.S. Holders

3.1.1. Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) impose a new reporting regime and potentially a 30% withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "foreign financial institution", or **FFI** (as defined by FATCA)) that does not become a "**Participating FFI**" by entering into an agreement with the U.S. Internal Revenue Service (**IRS**) to provide

the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States account" of the Issuer (a **Recalcitrant Holder**). The Issuer is classified as an FFI.

The new withholding regime is now in effect for payments from sources within the United States and will apply to "**foreign passthru payments**" (a term not yet defined) no earlier than 1 January 2019. This withholding would potentially apply to payments in respect of (i) any Notes characterised as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "**grandfathering date**", which (A) with respect to Notes that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register and (B) with respect to Notes that give rise to a dividend equivalent pursuant to section 871(m) of the U.S. Internal Revenue Code of 1986, is the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or which are materially modified after the grandfathering date and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued on or before the grandfathering date and additional Notes of the same series are issued after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an **IGA**). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "**Reporting FI**" not subject to withholding under FATCA on any payments it receives. Further, an FFI in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being **FATCA Withholding**) from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States has entered into agreements with Curaçao, France and Luxembourg (the **Relevant IGAs**) based largely on the Model 1 IGA.

If the Issuer is treated as a Reporting FI pursuant to the Relevant IGA it does not anticipate that it will be obliged to deduct any FATCA Withholding on payments it makes. There can be no assurance, however, that the Issuer will be treated as a Reporting FI, or that it would in the future not be required to deduct FATCA Withholding from payments it makes. Accordingly, the Issuer and financial institutions through which payments on the Notes are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Notes is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

While the Notes are cleared through Clearstream, Luxembourg, EUI, Euroclear, Euroclear Finland, Euroclear France, Euroclear Sweden, SIS, Verdipapirsentralen and VP Securities (together, the **Specified Clearing Systems**), it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent and the common depositary or common safekeeper, given that each of the entities in the payment chain between the Issuer and the participants in the Specified Clearing Systems is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes. The documentation expressly contemplates the possibility that the Notes may go into definitive form and therefore that they may be taken out of the Specified Clearing Systems. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA Withholding. However, definitive Notes will only be printed in remote circumstances.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Notes.

3.1.2 Hiring Incentives to Restore Employment Act

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the U.S. Internal Revenue Code of 1986 which treats a "dividend equivalent" payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) and (ii). Final U.S. Treasury regulations implement withholding under Section 871(m) beginning 1 January 2017.

While significant aspects of the application of Section 871(m) to the Notes are uncertain, if the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Notes.
